

# *Paintings by Louise B. Cochrane*

*September 5 - October 12*

*Mrs. Cochrane has been known for many years for her accomplished floral paintings.*

Since the beginning of her study of painting in 1970, Louise Cochrane has travelled the world, photographing exotic places that have furnished subjects for her artwork. She loves to muse over gardens and capture their blooms in beautiful color and form.

In addition to her love of gardening and of making art, Mrs. Cochrane's 2007 gift made possible the expansion of the former Rose Belvedere into the new Rose Garden, featuring 1800 varieties of her favorite flower.
