GARDENFEST OF LIGHTS

November 22, 2019–January 6, 2020

5–10 p.m. (Closed Thanksgiving, December 24 & 25)

**LEWIS
GINTER
BOTANICAL
GARDEN**

This year's theme **"Magic in the Air"** is inspired by things that fly. Guests will enjoy all manner of items that move through the air, from natural wonders (birds and butterflies), to man-made inventions (kites and airplanes) to fanciful creatures (dragons, unicorns and flying pigs). In this year commemorating the first manned mission to land on the Moon, there will even be rocket ships and an astronaut made of lights.

NIGHTLY HIGHLIGHTS

Merry Mondays

COMING THIS SPRING WIND, WAVES AND LIGHT: ART IN MOTION

Apr. 24–Oct. 18, 2020. This exhibition features large-scale, stainless steel sculptures that move and change with the wind. An artist and engineer, George Sherwood creates kinetic sculptures that evoke shimmering leaves, flocks of birds, schools of fish and waves of light and water.
