## Supply List

White flowers will be our plant model to learn about using the white paper as the painted shape and lights/darks to create form.

For the morning, the instructor will provide plant material (probably daisies) for dissection and practice.

For painting in the afternoon, bring to class a white flower(s) of your choice (daisy, orchid, lily, etc.) and a line drawing of that subject transferred on to watercolor paper as close as possible to actual size. You should be ready to paint immediately.

Your favorite watercolor supplies, brushes, paints, pencils, drawing board, light.
